

Bollards

MAINTENANCE FREE BOLLARDS FROM SUSTAINABLE RECYCLED PLASTIC

Our static bollards are easy to install using traditional methods, and will give you decades of service, providing you with both an immediate and long term cost saving.

Because Omnia bollards are plastic they will not rot, split, splinter or require any maintenance at all thus making them ideal for outdoor areas with high traffic flow.

Omnia recycled plastic bollards are also much less likely to damage any vehicles that come into contact with them, than the more traditional concrete or steel bollards.

Omnia recycled plastic products are made from 100% recycled plastic, using our unique, low energy recycling process, helping to reduce your carbon footprint without compromising on quality.

IMAGINE A PRODUCT THAT:

- LASTS FOR DECADES
- WILL NOT SPLIT OR SPLINTER
- VANDAL RESISTANT
- MAINTENANCE FREE
- VEHICLE FRIENDLY
- VERY DURABLE
- EASY TO INSTALL
- COST EFFECTIVE

IMAGINE THE POSSIBILITIES!
